

Las Cupulas Sayulita

2,910 Sqft - Sayulita

Property Description

Bienvenidos a Las Cupulas (The Domes), arguably one of the most unique and well thought out properties in Sayulita. The product of a trio of Architect colleagues who vacationed in Sayulita for their first time and bought land immediately. Their collaboration on plans and attention to detail through construction resulted in 3 distinct Casitas privately dispersed amongst lush gardens all centered around a most inviting pool. Quietly tucked away off Niños Héroes, you are a short walk to the surf, the plaza and the multitude of eclectic shops and fine dining Sayulita is famous for. The options for personal enjoyment and privacy coupled with significant income potential are extensive. All combinations have already been explored with proven success.

Basic Details
